

Dear Boundary County Library Digital Cardholder,

We appreciate your concern over specific materials in our library. Selecting materials that serve the needs of our community is a vital part of operating a library. The Board of Trustees takes this responsibility very seriously and has established a Materials Selection and Collection Development Policy for selecting resources as well as a detailed reconsideration procedure for requesting reconsideration of items in our collection. We, the Board of Trustees, have enclosed documents for your review. Please feel free to contact the Board if you would like to discuss them further.

If you are still concerned after you review the library policies, please complete the Boundary County Library Materials Reconsideration packet and return it to the library. You may be assured of prompt attention to your request. The steps that will be taken are outlined in the Reconsideration of Boundary County Library Materials (section 6.7). At any point during this process, please feel free to contact the Board with questions or concerns.

Sincerely,

A handwritten signature in black ink, appearing to read "Bob Blanford", is written over a horizontal line.

Bob Blanford
Board Chair
Boundary County Library Board of Trustees
